- SCHOOL OF PHARMACY
- SCHOOL OF ARCHITECTURE

7.3.1 INSTITUTIONAL DISTINCTIVENESS

Title: Holistic development of students for making them exuberant technical professionals.

Students admitted to our programs come from varied social, economical, and cultural backgrounds. The majority of these admitted students are first-generation learners which at times pose unique academic challenges. Their social environments are challenging that have a lasting impact on their attitudes and personalities. Keeping this in mind institute offers its assistance in academic/technical, financial, and social aspects.

Academic Assistance:

As the majority of the admitted students are from the vernacular medium, communication (written and verbal) in English is one of the major academic hurdles of the students. To overcome this problem, the institute has planned, created, and organized practical sessions on improving their communication skills. To develop and improve the technical and academic skills of the students, various students' technical bodies are formed, such as Programmers Club, Peer to Peer learning (P2P), and Wiring Wizard along with departmental students' associations. Expert lecture sessions are kept to bring students on the track of technical thrust areas. Campus recruitment training is also imparted, in consultation with the training and placement team, training students on aptitude, value added courses, software training, etc. To improve the academics of the students, they are divided into slow and advanced learners as per the defined procedure. The slow learners have improvement sessions in terms of extra sessions, counseling sessions, etc. The advanced learners are provided with special sessions for encouraging and guiding them towards competitive exams like GATE, GPAT, etc. The FUERZA is an annual technical fest that is a platform for developing students' technical skills, teamwork spirit, etc. In the School of Pharmacy, students are helped to be Health advisor to the society, competitions kept on poster making and model making.

Financial Assistance:

The institute support and guide its students to receive scholarships from various government and non-government agencies. The institute under Anjuman-I-Islam trust provides financial support using zakat and non-zakat funds to its needy students. Many non-government scholarship agencies are associated with the institute, wherein the institute refers its needy students to them for the scholarships. The institute maintains a list of many non-government scholarship agencies, which is provided to the needy students. Recently the institute has initiated a concept of "One Rupee Magic". The collection boxes are fixed at different places in the institute. The amount collected will be given to the payment of the fee of needy students.

Social Assistance:

Apart from the mentoring system, the institute has hired an external agency named as Centre for Assessment, Remediation and Therapy (CART) working under Human Resources Centre for Achievement, Reformation and Excellence (HR-CARE). The agency conducts survey on academic and mental health. A report is then submitted to the departments. The same report is considered while dealing with the students. Mentoring done by faculty members and selected students diverted to the agency personnel for counselling.
