☐ SCHOOL OF PHARMACY
☐ SCHOOL OF ARCHITECTURE

DEPARTMENT OF CIVIL ENGINEERING

Feedback of Teachers on Curriculum of Civil Engineering (2020-21)

Teachers Feedback on curriculum was collected and assessed by departmental feedback and audit committee.

Their suggestions are mentioned in tabular form

Name of Faculty	Subject	Suggestion
Dr. Prabha Joshi	Engg. Geology	In order to add some application part to the syllabus, the syllabus has become very vast, a few subtopics can be removed from the syllabus.
Dr. Girish B.Mahajan	QSEV	Current Syllabus is very much perfect in terms of all the contents, examination scheme & overall curriculum structure. As far as Industry requirements are concerned, appropriate software must be introduced in syllabus for the preparation of estimates.
Dr. Girish B.Mahajan	CM	As per industry requirements, students must be conversant with software by which they can develop networks & update projects also. So at least one small project must get exercised with the help of Software like MSP.
Prof. Dhaval S. Shah	IWT	recently updated, so no suggestions
Prof. Dada S. Patil	TRCS	Content of this course is well-framed, by considering Working Stress Method as well as Limit State Method. Overall curriculum structure is quite good. However, some simple software part can be introduced at the end of the different modules. Examination scheme is OK.
Prof. Dada S. Patil	DDRCS	Examination scheme is OK. Courses at VIII semester are appropriate. Overall curriculum structure is quite OK. Inclusion of simple software tools will improve the learning of students.
Prof. Dada S. Patil	MOS	Examination scheme is good. The contents in the course are appropriate. Overall curriculum structure caters to the needs of the students.
Prof. Fauwaz Parkar	PEFM	No suggestion
Prof. Fauwaz Parkar	P&S	Syllabus must be more application oriented
Prof. Tehsin A Kazi	T.E	New syllabus has made TEI &TE II combined , therefore TE has become vast and very lengthy.
Prof. Shafi Mujawar	BMCT	Examination scheme is OK. Courses at sem IV are appropriate. Overall curriculum structure is OK.
Prof. Shafi Mujawar	MOS	Examination scheme is OK. Courses at sem III are appropriate. Overall curriculum structure is good.
Prof. Firoz Nadaf	SA	Structural Analysis -1 & 2 must not be joined together. They must be separately taught as was taught in the previous scheme.
Prof. Vedprakash Marlapalle	Surveying	one of the best designed syllabus. no change required.
Prof. Irfan Nalband	EE	Introduce software like EPANET, WATERCADD in syllabus used by CIDCO & MHADA are not added
Prof SayyedaZara Jahagirdar	WRE	Course and its contents are all revised now in new syllabus, Implementation or Introduction to software related to Water Resource should be introduced.
